AirCast CryoCuff®

Therapy combines compression and cold: compression minimizes swelling, while cold minimizes pain. Water cooler, pressurized ice water, and Cuffs made for specific body parts. Cooler holds enough ice and water for 8 hours of cryotherapy. Compression is gravity controlled. Cuffs are made of nylon and vinyl. Use with gravity feed or continuous AutoChill® electric pump. Select your garment, then choose between the traditional gravity and auto pump chill code for auto circulate option.

Free-Up® Soft Tissue Massage Cream

Formulated exclusively for the healthcare professional, Free-Up Massage Cream is noted for its glide, lubricity, tissue perception and:

- Superb soft tissue medium lets you work either surface or deep tissue
- Great glide, promoting exquisite tissue sense to your fingers and hands
- Excellent lubricity. Unlike oily or slick substances, Free-Up does not inhibit deep tissue perception and discrimination
- Recommended for fibromyalgia patients
- Cost effective. Because of its slow absorption rate just a small amount goes long way
- Developed by a Physical Therapist to meet the needed criteria of a professional's massage medium
- Safe, quality formulation. Bacteriostatic. Hypo-allergenic. Does not contain beeswax.
- Won't ball-up or dry out on the skin.
- Available scented or unscented, in 8 oz. or 16 oz. sizes.
