

# Measurement and Evaluation

## Baseline 360° Plaster Goniometers

The Baseline 360° Goniometers are manufactured in a strong, clear plastic and have three scales calibrated with the ISOM International Standards of Measurement System. Available in three sizes 6", 8" and 12"

### Ordering details

FOU0010 12" Goniometers  
FOU0015 8" Goniometers  
FOU0020 6" Goniometers

FOU0005

## Bubble Inclinator

The Bubble Inclinator accurately measures range of motion. Place the Inclinator near to the joint to be measured, turn the dial until the scale reads zero, take the joint through its range and read the total travelled directly from the dial.

# Measurement and Evaluation

## Touch-Test™ 2-point discriminator

- Tests static and moving two-point discrimination of fingers, toes or sensory flaps
- Consists of two sturdy, rotating, plastic disks that are joined together
- Rounded tips are spaced at standard testing intervals
- Ideal for testing following nerve repair, grafts and innervated tissue transfer for desensitization, or to determine the level of impairment
- Includes instructions and a protective carrying case

### Ordering details

FOU1265 Touch Test™ 2-point

## Dellon® 2-point Disk-Criminator™

For testing static and dynamic one and two-point discrimination. Set includes two disks that quantify innervation density from 1 to 25mm. Useful as a postoperative therapeutic aid for desensitization and home programs following nerve repair, graft and innervated tissue damage. Includes storage pouch and instructions.

### Ordering details

FOU1270 Dellon® 2-point

## Baseline® 2-point discriminators

Evaluate cutaneous sensitivity and touch threshold. Third point permits alternating between single and double point stimulation without changing setting. Plastic points minimize influence of temperature. Measures up to 14 centimeters.

### Ordering details

FOU2520 2-point discriminator, plastic  
FOU1325 with third point, plastic  
FOU1330 2-point discriminator, stainless steel

## Baseline® monofilaments

Damage resistant, portable monofilaments detect changes in neurological status. Ideal for screening for peripheral nerve impairment. Can also be used in diabetic foot screening.

### Ordering details

FOU1305 1 gm  
FOU1310 10 gm  
FOU1315 75 gm  
FOU1320 3 piece set

## Baseline® tuning forks

Evaluate hearing and vibratory sensation. Set of 6 of the most commonly used frequencies contains the following tuning forks (128, 256, 512, 1024, 2048, 4095 cps).

### Ordering details

Sets  
FOU1275 Set of six with case

Weighted tuning forks  
FOU1280 30 cps weighted  
FOU1285 64 cps weighted  
FOU1290 128 cps weighted  
FOU1295 256 cps weighted

# Measurement and Evaluation

## PortRod

Lightweight and portable wall mount height rod. Measures height from 24" to 83.25" (60cm to 211cm). Kit included for mounting on wall. Weighs 3 pounds.

### Ordering details

FOU1335 PortRod

## Large dial scale

Professional large dial scale with 6½" dial in pounds (black) and kilograms (red), with non-slip surface. 330lb/150kg capacity with 1 lb/.5kg increments. Platform is 17" x 11".

### Ordering details

FOU1340 142KL scale

## Dual head stethoscope

Turn stem to convert to non-child ring. External spring binaural, 22" tubing.

### Ordering details

FOU1400 Dual-head

## Electronic blood pressure/pulse meter

Unit displays reading of systolic and diastolic blood pressure and pulse. Arm cuff units available with automatic and manual inflation system (require 4-AA batteries). Finger sensor unit inflates/deflates automatically (requires 4-AAA batteries).

### Ordering details

FOU1410 Auto arm cuff inflation  
Auto BP with pulse

## Wrist, blood pressure and pulse

Blood pressure and pulse are displayed on a compact wrist unit. Easy to strap on to the patient.

### Ordering details

FOU1415 Wrist, BP and pulse

## Nurses stethoscope

Anodized aluminum chest piece, plastic, 22" tubing.

### Ordering details

FOU1405 Dual-head

## Aneroid sphygmomanometer

High quality aneroid sphygmomanometer with adult inflation system and carrying bag.

### Ordering details

FOU1420 Adult w/ case

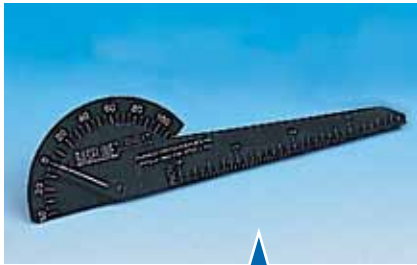

## Baseline® measuring tape

Measurement tape reads in inches and centimeters and unfurls to 5 feet. Locks in place until reset button is pressed.

### Ordering details

FOU1425 Retractable tape

# Measurement and Evaluation

## Finger 180° Digit Goniometer

Finger Goniometer needs only one hand to operate. Stainless steel

### Ordering details

FOU0065 Finger 180° Digit Goniometer

## Skinfold Calliper

Low cost lightweight calliper measurement arms with "floating tips" are kept under constant pressure to assure accurate results.

### Ordering details

FOU0060 Skinfold Calliper

## Pinch Gauge

Pinch Gauge provides measurement of tip, key and palmer pinch strength in both pounds and kilos. Includes case.

### Ordering details

 FOU0030 30 lb - blue  
 FOU0035 60 lb - red

Weak or Damaged Hand  
 FOU0040 2 lb - gold  
 FOU0045 10 lb - silver

## Baseline® economy plastic skinfold caliper

Plastic skinfold caliper is the inexpensive alternative for skinfold analysis. Spring loaded arm assures reproducible "pinch". Read directly from the 50mm scale. Ideal instrument for screening large populations. Comes with instructions and tables.

### Ordering details

FOU0200 Economy skinfold caliper

## Disposable Pinwheel

### Ordering details

FOU0055 Plastic Pinwheel

## Wartenburg Pinwheel

Use the Wartenburg Pinwheel to elicit cutaneous sensory and pain prescription responses. Stainless steel.

### Ordering details

FOU0050 Wartenburg Pinwheel

## The Stabilizer™ Pressure Biofeedback

The Stabilizer™ Pressure Biofeedback is a simple device used to provide feedback to ensure quality and precision in exercise performance and testing. In the rehabilitation center, the Stabilizer monitors the position of the low back or cervical spine during muscle testing to determine if the patient is able to selectively isolate their cervical or lumbopelvic core stabilization muscles. When used during exercise, the Stabilizer provides a patient feedback as to when they have isolated and are maintaining a contraction of either the cervical or

lumbopelvic core stability muscles.

The Stabilizer is simple enough to use during a home exercise program by providing sensitive feedback on the positional changes of the lower back, while performing back exercises. It may help prevent exercise-induced sprain/strain of the lumbopelvic region of the low back and keep the patient aware of lower back (the lumbopelvic region).

### Ordering details

# Measurement and Evaluation

## Baseline 3 piece hand evaluation sets

Portable carrying case contains all instruments necessary to evaluate the strength and range-of-motion of the hand and fingers. Set includes hydraulic hand dynamometer (200lb), hydraulic pinch gauge (50lb) and 6" stainless steel goniometer.

### Ordering details

FOU0210 200lb standard

## Baseline 7 piece hand evaluation sets

Instruments needed for a full hand evaluation are stored in the case. Grip strength is measured by the hydraulic hand dynamometer (200lb) and pinch strength by the mechanical pinch gauge (30lb). Other measurements are made with the stainless steel goniometer, 2-point discriminator with 3rd point, Wartenburg pinwheel, finger circumference gauge and functional finger motion gauge.

### Ordering details

FOU0695 200lb standard

## Baseline Hydraulic Hand Dynamometer

The Baseline Hydraulic Hand Dynamometer gives accurate grip strength readings, without the patient being able to 'feel' the handle move. The adjustable handle has five positions to accommodate to any hand size. It registers in both kilograms and pounds. Each dynamometer is supplied with a carrying case.

### Ordering details

## ReliaMed™ Tapes

### Clear Tape

- Ideal for securing catheters and tubing, or anchoring bulky dressings
- Easy to handle; permits straight and bi-directional tearing
- Adheres well to both tuing and skin
- Porous, transparent and hypoallergenic
- Water-resistant

### Cloth Tape

- Perfect for securing dressings, catheters and tubing; and for repeated applications where preservation of sensitive or at-risk skin is essential
- Gentle to skin with moderate stretch to accommodate swelling and movement
- Water-resistant; white

### Paper Tape

- White, hypoallergenic paper tape for general use
- Easy to tear, with a natural porosity which allows skin to breathe
- Ideal for situations involving frequent re-taping
